BIG FIRE IN DETROIT

Six Men Dead and Ten Others Injured.

FURNITURE FACTORY DESTROYED

Sixty-Five Persons at Work in the Building at the Time the Fire Was Discovered. The Chief of the Fire Department Censured For Allowing His Men to Risk Their Lives.

DETROIT, Oct. 6.—Six men are dead, 10 are more or less injured, and \$50,000 worth of property was destroyed by the burning of Keenan & Jahn's 5-story furniture establishment on Woodward avenue, yesterday.

The dead, all of whose bodies have been recovered from the ruins, are:

Michael H. Donoghue, lieutenant of Chemical Engine company.

J. R. Dely, pipeman.

John W. Fagel, pipeman.

Julius Cummings, pipeman.

Frederick Bassey, electrical worker and substitute fireman.

The injured are:

Frank E. Stocks, fireman, head and face frightfully cut.

Michael C. Gray, fireman, scalp wounds, back and arm hurt.

John B. Newell, truckman, scalp cut, arm and leg bruised.

Thomas C. Gurry, scalp badly wounded, severe body bruises.

Patrick J. Kourik, lieutenant engine company, slightly injured.

B. Cronin, pipe man, slightly hurt.

Leslie McSweeney, fireman, head cut, hands mashed and minor injuries.

Henry Kimberley, fireman, scalp and arms wounded.

Henry Herig, fireman, leg broken, face cut.

Fred Draheim, injured internally; condition critical.

The fire apparently originated at the bottom of the elevator shaft and swept upward with tremendous swiftness.

About 65 persons were at work in the manufacturing portion of the building in the upper stories, but all escaped unhurt.

The water supply seemed at first inadequate, and the building was soon ruined.

After the interior of the structure had been partially burned out, it became apparent that the front and rear walls were in danger of falling.

But Fire Chief Elliott permitted his men to advance with their hose as closely as possible, both from front and rear.

Suddenly the front wall sagged forward and the great mass of hot bricks, timber and iron crashed to the sidewalk with a tremendous roar.

Almost at the same instant the rear wall crumbled and fell into the alley at the rear.

Above the tumult of the panic-stricken crowd rose the shrieks of the wounded and imprisoned firemen.

Sixteen in all were in the path of the tumbling walls, but 10 escaped alive after a few seconds of thrilling experiences.

The comrades worked to rescue the dying and remains of the dead in the hot ruins amid a blinding smoke, and all were recovered, but none of the six had survived, and their limp and crushed remains were in some cases almost unrecognizable.

Chief Elliott is being roundly scored for risking the lives of his men when, as is claimed, there was no call for such a hazard.

He says that he had no reason to believe the walls were unsafe and that the men were only doing their regular duties as firemen.

The walls of the building, as was well known, were considered especially thin, so much so that the city building inspectors had refused to allow the owners of a new building now being erected on adjoining property to use the partition wall.

It is considered probable that an investigation as to the necessity for risking the men's lives will be held.

TRAINMEN AND TRAMPS.

A Fetched Battle Occurs Near Anderson in Which One Man Is Wounded.

ANDERSON, Ind., Oct. 6.—A pitched battle between trauimen and tramps took place southwest of this city last night.

The crew of the Southwestern limited on the Big Four received orders to sidetrack four miles south of the city to allow the eastbound Southwestern to pass.

As the train left this city, the blind baggage car was boarded by four tramps.

When the siding was made Brakenman Wilson went to the front platform and ordered them off.

The four showed fight and flashed revolvers. Wilson ran to the engine cab, called the engineer and fireman, and the three pulled their revolvers.

Firing began, and fully 20 shots were passed. The finale came when one of the tramps staggered and fell.

He was taken up by one of the four and carried to the woods at the side of the track.

Just then an eastbound train passed and the engineer pulled out to make up lost time.

Anderson police officers were notified and a thorough search was made, but further than pools of blood nothing could be found.

FORT SMITH, Ark., Oct. 6.—The Cook-Dalton gang of bandits slipped into Fort Smith yesterday evening after committing the bold robbery at Fort Gibson, engaged a big wine and oyster supper and slipped out again before United States deputy marshals knew of their presence.

It was one of the boldest acts ever credited to the bandits.

MARRIED A WEEK AND COMMITTED SUICIDE.

BELTON, Mo., Oct. 6.—Henry Hockaday, one of the most prominent young men of this city, suicided yesterday by taking strychnine.

He was a brother of Judge C. S. Hockaday and otherwise highly connected. He was married only last week and the cause of his rash act is a great mystery.

AUSTRIA MAY JOIN GERMANY

In Protesting Against the Discriminating Duty on Sugar.

WASHINGTON, Oct. 6.—Austria is likely to join Germany at an early day in protesting against that feature of the new tariff law of this country which puts a discriminating duty on sugar from countries paying an export duty or bounty on sugar.

Chevalier De Tavera, the Austrian minister here, says that as yet he has received no instructions on the subject.

He states, however, that he is expecting Austria to make a protest similar to that of Germany, as the two countries act in concert on all questions of foreign policy.

"The sugar industry of Austria is vast," said the minister, "and it was one of the items principally affected by the reciprocity treaty between the United States and Austria."

As to how the new American tariff law will operate against Austrian sugar is still a question of doubt as Austria pays no export duty similar to that paid by Germany, but gives a rebate to the Austrian sugar producers on the internal revenue tax levied on sugar.

Whether this rebate will be construed to be equivalent to export duty remains to be seen.

Its effect is probably the same as it encourages the Austrian sugar producers on such of their product as they ship abroad, and yet it is not technically an export duty against which the new American tariff law makes a discrimination.

Chevalier De Tavera was in Vienna on Sept. 1 last, but the question had not come before his government, as the tariff law did not go into effect until a few days before that date.

As the minister is to go to his new post in Brazil, it is probable that his successor, Mr. Von Hengelmüller, will have charge of such steps as Austria determines to take on our sugar duties.

SHORT BANANA GRAP.

The Recent Cuban Storm Damaged the Plantations.

PHILADELPHIA, Oct. 6.—According to reports made by Captain Hottelmann of the British steamship Braganza, which has just arrived from Baracoa, Cuba, bananas will be a scarce commodity at this port for some time to come.

While the Braganza was in Cuba, on Sept. 22 and 23, the northeast end of Cuba was visited by one of the most terrific hurricanes that has swept that locality for 20 years.

All the banana plantations were either totally destroyed or badly damaged.

Houses were blown away, trees uprooted and other great damage was wrought.

The coconut oil factory, run by American capitalists, was badly damaged.

Great damage was done up the mountains in the locality of Mata and Yumri, and the Braganza returned with only a part cargo of fruit.

ISLAND OF DOMINICA.

Discontent Among the Poorer Classes Owing to Heavy Taxes.

LONDON, Oct. 6.—The report of Sir Robert Hamilton, the commissioner sent to inquire into the affairs of the island of Dominica, West Indies, says that the population of the island, estimated to amount to about 30,000 persons, is discontented on account of the poverty existing, which is said to be due to defective administration.

The report also says that the poorer classes are too heavily taxed, and suggests, among a number of economic and administrative reforms, that the island of Dominica be withdrawn from the Leeward islands federation, and placed under the control of a lieutenant governor.

Sir Robert Hamilton, in conclusion, says that Dominica has a great future before it, if the reforms which he advocates are carried out.

DEPOT ROBBERY.

MUSKOGEE, I. T., Oct. 6.—Last night the K. & A. V. depot at Fort Gibson was robbed by six masked men.

The Cook gang, which are successors to the Daltons, are known to have been in the vicinity during the past week, and the inference is that they were the robbers.

They stuck a gun through the window at the telegraph operator's table and required him to open the door.

They then ordered the safe to be opened, and the operator swore he did not know the combination, and they then went to the agent's home and escorted him to the depot, where they made him open the safe.

They took about \$500 without doing violence to anyone.

FATE OF A KAVISHER.

FAIRFIELD, Tex., Oct. 6.—Henry Gibson, colored, attempted to outrage Miss Mitchell near Mills yesterday evening, but was prevented by her screams, which attracted help.

Miss Mitchell was cut several times, but not seriously. The fiend was arrested and taken to Mills, where he was identified.

He was being guarded at a store, but this morning about 3 o'clock a shot was fired by some unknown party from the outside, which killed Gibson.

FINISH FIGHT ARRANGED.

CHICAGO, Oct. 6.—Articles have been signed for a finish fight between Tommy Ryan of Chicago and Jack Dempsey, the "Noupareil."

The men will meet in the arena of the Auditorium Athletic club of New Orleans, on Dec. 12, for a purse of \$5,000, weighing in at 144 pounds at the ringside.

"Parson" Davies has forwarded a forfeit of \$1,000 to the Crescent City to bind the match. John Duffy is to referee the fight.

CONDUCTOR SHOT BY A TRAMP.

BUTTE, Mo., Oct. 6.—C. W. West, a conductor on the Butte, Anacanda and Pacific railway, was shot twice by a tramp named Clay Pugh here yesterday and mortally wounded.

Pugh tried to boat his way on West's train, but was put off and immediately opened fire on the conductor. The murderer was captured.

EASTERN HURRICANE

Its Full Extent Is Just Now Being Found Out.

SACRIFICE OF MANY LIVES.

But One Man Accounted For of a Crew of Seventeen—Wreckage Being Washed Ashore Every Day Indicating That a Number of Vessels Have Been Lost.

Reports From Different Places.

KEY WEST, Oct. 6.—Every day fresh information reaches here from the Keys, relative to the loss of life in the recent hurricane.

Mr. Pinder, who resides on East Matacumbe Key, reports that after Sept. 29, two sailors drifted ashore with life preservers from the British bark Brauden of Quebec, from Ship Island for Liverpool, with a cargo of timber, which ran ashore on Crocus reef at 10 o'clock on the night of Sept. 26, and after pounding over the reef, got into the channel and capsized.

Another of the crew came ashore the same night. There were 17 in all on board and these are the only ones accounted for.

The captain, William Redford, had one leg broken by a wave as soon as the ship struck the reef, and a Norwegian sailor had both legs crushed.

While two of his shipmates were trying to relieve him, another wave lifted the timber which held the Norwegian down, so they could draw him out.

They then fastened a life preserver on him. These surviving ones think the captain, the Norwegian, the mate, steward and another of the crew were drowned, as they were in the cabin when the ship upset.

The shore is full of pieces of her cabin, fore-castle and houses; the three of her boats are smashed to pieces. The names of the surviving ones of the British bark Brauden are:

John T. Warrel, Woolwich, Eng.; William Spoforth, and Lennert Lax, Finland, Russia.

The Norwegian ship Theora was lost off Turtle harbor, but all were saved.

W. J. H. Taylor, the English, Swedish and French vice consul, provided for the crews and looked in every manner for their comfort.

On Sept. 28 Messrs. Sam Williams and Leonard Lowe discovered the body of a drowned man on the outside of Tanager Key.

After informing some neighbors of the circumstances they repaired to a place near where the body lay and buried it. The body was much swollen and discolored, having nothing upon it which would lead to identification.

It is likely that the number of lives lost will never be known, as communication with the Keys is difficult.

REPORT FROM PHILADELPHIA.

Shipping Men Report a Heavy Loss of Property on Account of the Storm.

PHILADELPHIA, Oct. 6.—News of the damage to shipping by the hurricane of Sept. 26 and 27, which swept the southern coast, is now being received, and the shipping men anticipate the loss of much valuable property and the sacrifice of many lives when the full particulars are brought to light.

Vessels are arriving greatly damaged and their captains report thrilling encounters with the elements.

The schooner George E. Vernon, Captain Delehanty, has arrived from Pensacola, almost a complete wreck, and many other accidents have been learned through the arrival of vessels from southern ports.

News came yesterday from Kingston, Jamaica, of the safe arrival at that port of the overdue British steamship Empress, Captain Samuel Hughes, after a terrific passage.

Captain Delehanty says that the voyage just completed was the worst he ever experienced. He never expected to see land again.

W. F. Hagan of this city, managing owner of the British ship Otogo, received a cable yesterday from Jamaica, stating that the vessel had been abandoned at sea in a sinking condition, and that all hands had been safely landed at that port.

Arriving vessels report that the southern waters are strewn with wreckage of every description, indicative of many shipwrecks.

The greatest anxiety prevails for the safety of a number of vessels that are known to have been in the track of the storm.

FARMERS' NATIONAL CONGRESS.

The Fourteenth Annual Session Adjourns After an Interesting Session.

PARKERSBURG, W. Va., Oct. 6.—The fourteenth annual session of the farmers' national congress adjourned last night to meet in Atlanta, Ga., next fall, a date to be fixed by the executive committee.

The closing exercises were very interesting. Professor Sanborn of New Hampshire delivered an address on "Large vs. Small Farms."

Colonel Will B. Powell of Pennsylvania spoke of "Woman From the Standpoint of a Bachelor." Rev. F. Butler of Texas—"Uncle Surt"—spoke briefly, as did Major Ryals of Georgia.

Colonel T. J. Appleyard of Florida read a paper on the "Success in Florida." A resolution favoring the election of United States senators by the people was indefinitely postponed.

A resolution favoring restricted immigration was adopted. A resolution favoring the free coinage of silver was voted down.

In the afternoon the main speech was delivered by Judge Lawrence of Ohio on the government protection to the sheep husbandry, which he strongly favored.

The congress will wind up with an excursion to the Sistersville oil field.

The present officers hold their offices for another year. This has been the most profitable session of the farmers' congress ever held. Parkersburg entertained it royally.

CONDITION OF CHINA

Views of an Ex-United States Consul.

THE DANGER TO FOREIGNERS.

Their Danger Comes From the Inability of the Chinese Officers to Restrain Their Soldiers—Chinese Soldiers Deserting the Army and Joining the Enemy—Purchase of Cheap Firearms.

NEW YORK, Oct. 6.—Henry T. Andrews, recently United States consul at Hankow, China, at the Fifth Avenue hotel, was asked to give the Associated Press his views of the present condition of China, particularly in regard to the danger threatening foreign residents at Peking, Shanghai, Hankow and other places open to foreigners, he said:

"The question of foreigners leaving Peking, has been discussed for some time past. Their danger comes from the inability of the Chinese officers to restrain their soldiers, the latter always considering foreigners legitimate objects to ridicule and abuse."

Peking being to a certain extent an isolated place, it is most important that the families of foreign residents should be taken to points where they can have protection of gunboats. The bulk of the foreign population of Peking are the foreign officials and their families, comprising the members of the foreign legations and such employees of the imperial customs as are on Sir Robert Hart's staff and those belonging to the customs college.

"The only access to Peking being overland and a hard trip, the route from Peking to Tien-Tsin coal fields is by a direct and closed, which makes it impossible to bring away the women and children except under a strong, armed foreign escort."

The British government has evidently taken cognizance of this fact, and hence the report that the government proposes to send blue jacks and Indian troops to Peking.

"I do not think there will be the slightest resistance offered to the entry of the British forces into Peking; first, because of the respect that all foreign soldiers inspire among the Chinese, and second, on account of the ability of trained troops, in small numbers, to successfully resist the attack of any number of Chinese it is possible to bring against them."

"In regard to the coast treaty ports, they are so situated that the foreign population can be taken away on the packets which touch at them almost daily."

"The treaty ports on the Yang-Tze-Kiang would be much harder to relieve in case of trouble and hence the necessity of anticipating it. The defense corps mentioned in the Associated Press cable dispatches was first organized in 1892 during the riots inaugurated against the foreigners all along the Yang-Tze-Kiang at that time."

DESERTING THE CHINESE ARMY.

At This Rate Japan Will Soon Win the Victory.

SHANGHAI, Oct. 6.—Wang Feng Tsao, late Chinese minister at Tokio, has had an audience at Peking and was severely censured on account of his ignorance of the Japanese designs in Korea. Two Japanese spies have been arrested at Nankin. One of them confessed that he had been furnishing information to the Japanese and added that he regretted that he had been captured before he finished his work.

The other prisoner, a clerk to the other spy, pleaded youth and ignorance in extenuation of his offense. Both are now awaiting the decision of the viceroy in their cases.

It is reported that 2,000 men, belonging to the Sheng division of Li Huanz Chang's crack corps, now in Korea, have deserted on account of their pay being in arrears. It is also rumored that they have joined the enemy.

Movements of the Japanese Troops.

LONDON, Oct. 6.—Mr. Allen, formerly British consul at New-Chwang, writes to The Times, stating that Lanchun, where the Japanese are reported to have landed, is unquestionably Hun-chun, near the frontier of Korea and Russia. Mr. Allen suggests that the Japanese will attempt to march against the arsenal of Kirin, 200 miles distant.

Missionaries Safe.

LONDON, Oct. 6.—In response to an inquiry regarding the safety of missionaries in China, the London missionary society has received a telegram from Hankow stating that all the missionaries are well and that they apprehend no trouble.

Cheap Firearms For the Chinese.

MARSEILLES, Oct. 6.—Advices received here from the far east are to the effect that the Siamese government has sold to Chinese traders 60,000 rifles of an obsolete type. The price paid by the traders was about 9 cents for each rifle.

Former Reports Not Confirmed.

LONDON, Oct. 6.—A dispatch to The Times from Shanghai says that the report that Japanese troops had landed at Shan-Tung, has not been confirmed. It is added that the warships that were sighted off Chusan were not Japanese.

The Cruiser Italy Ordered to China.

BREST, Oct. 6.—The cruiser Italy has been ordered to proceed to China at once.

Anxious For a Fight.

DALLAS, Tex., Oct. 6.—Scott Collins, better known as "Bright Eyes," the champion welter weight of Texas, is anxious to meet Joe Green, the New Orleans wonder, before any club offering a suitable purse. Jim Mitchell of Dallas is "Bright Eyes'" manager.

Treasury Statement.

WASHINGTON, Oct. 6.—The cash balance in the treasury at the close of business yesterday was \$120,121,276; gold reserve, \$39,500,020.

Excitement All Over.

Invasion of Kentucky Tax Precincts Temporarily Postponed.

STURGIS, Ky., Oct. 6.—All talk of armed invasion of the tax precincts by Collector Blackwell has ceased for the present, and Bendholder Preston has sent word to the funding board to meet him in Henderson today for a conference. He stated that he was afraid to come here. The funding board sent Mr. Preston an offer about 12 weeks ago, but he treated the offer with silence.

It is understood that Preston will offer a 50-cent compromise, but the board will not dare accept anything above the original proposition, as the people would not abide by it. A hundred thousand dollars for both precincts will be the best Mr. Preston gets, and a little more stubbornness on his part will put the people out of the notion of paying anything, having repeatedly offered him all he paid for the bonds with interest.

Mysterious Mail Robbery.

ST. JOSEPH, Mo., Oct. 6.—A mysterious mail robbery has taken place on the Hannibal and St. Joseph railway postoffice, but where to place the responsibility is not yet known. The postoffice officials and trainmen here refuse to talk, but all admit that a robbery has taken place. The through registered mail from Chicago has been relieved of 19 registered packages, but the amount contained in them can not be learned, although this office admits it is no small amount.

The discovery was made by the Chicago office, and the pouches have been traced through as far as Cameron. Up to that point, it is claimed, they were all right. The method used was to cut a slit in the pouch under the flap. An investigation is now going on here.

Mexico's Trouble With Guatemala.

WASHINGTON, Oct. 6.—Minister Romero of Mexico says the belligerent tones of press dispatches stating that Mexican troops have been sent to the Guatemalan frontier is unwarranted. The minister states that the trouble with Guatemala is of trifling importance. It was referred to by President Diaz in a recent address as a minor border contention, but it has never threatened to cause hostilities between the countries.

Situation in South Africa.

LOURENS, Marquess, Delagoa Bay, South Africa, Oct. 6.—The situation of affairs here grows worse. Great hopes were raised in regard to the service which would be rendered by Chief Maputa's men, who offered to aid the Portuguese against the Kaffirs. The chief's men arrived here yesterday and were given arms from the Portuguese arsenal; but they all fled, taking their weapons with them.

Steamer Shaken Up.

AMHERSTBURG, Ont., Oct. 6.—The steamer Swallow, towing the barge Dacotah, had a severe shaking up on Lake Erie in yesterday's blow. The Swallow arrived here in a sinking condition and will be docked at Detroit immediately for repairs. The Dacotah broke away from the steamer and has not been heard from since. As she is an old craft fears are entertained for her safety.

One Lone Robber.

EL PASO, Tex., Oct. 5.—Edward Garnet, the treasurer of Brewster county, was robbed of \$6,000 yesterday at Alpine, the county seat. At the point of a pistol a single-handed robber approached Garnet in his office and compelled him to hand over the money which Garnet kept in his private safe. Thereupon the robber made his escape and has not been apprehended.

France's Attitude Toward Madagascar.

PARIS, Oct. 6.—Referring to affairs in Madagascar, The Matin today says France will allow the people of Madagascar complete religious liberty, but will not permit British missionaries, under cover of religion, to politically influence the ministers of the queen.

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.

ROSSER & MCCARTHY,
Proprietors.

SATURDAY, OCTOBER 6, 1894.

Generally fair weather in the interior; but light local showers are likely to occur at lake stations.

More bad news for the calamity-howlers. The Watts steel plant at Middlesborough will be started next week. This is the largest basic steel plant in America, having a capacity of 400 tons a day.

The doom of the sugar trust has been sealed. It may take a few years to get rid of it, but if the Democrats remain in power it will have to go. It has become too arrogant and insolent under Republican protection.

The Republican nominees for County Judge and County Assessor failed, or refused, to give their party affiliation at the registration this week. Are they ashamed of the G. O. P., or was it simply a trick to catch Democratic votes?

The Iron Trade Review this week says: "Many furnaces report engagements for months ahead, and along with the additions to the list of producers there is a limit to the amount of spot iron offered, and no indication of an accumulation of stocks."

The Carlisle Mercury says the Democrats of Nicholas are all in a good humor and will be at the polls in November. Nicholas can be relied upon for a rousing majority for the ticket. If Mason and the other counties do as well, the district is good for at least 2,500 majority for Rolla Hart.

The New York Tribune, whose columns have been filled with dire portents of the disaster which the new tariff law would bring upon the country, actually made the following statement a few days ago:

The stores which were tightly closed at dusk for months are brightly illuminated until late at night, and through the open doors come the hum and buzz of activity. The hotels most frequented by buyers are crowded, and in the evening swarm with "drummers" on the lookout for the country buyer. At the theatres and other places of amusement the merchants from the West and South are seen in large numbers, and even during the inclement weather of last week these signs of returning activity in business were abundantly in evidence.

POLITICAL POINTS.

.....The hope and expectation that droves of Democrats, at the November election, shall help by their votes to swell the Republican majority, shall pan out, we think, like the hunt for Jack O'Lantern;—when you get there you always find Jack is somewhere else.

.....We feel it our duty to warn any Republican candidate who may be felicitating himself with the belief that large numbers of the untutored are going to desert their own party simply to elevate him to office, that such expectation in fruition shall prove as only Dead Sea apples.

.....We shall be surprised if the Republican expectation of Democratic assistance at the November election doesn't prove as delusive and evanescent as the boy's search for the pot of gold at the end of the rainbow.

.....The Republican candidate who is counting very largely on Democratic assistance and building air castles on such a foundation, shall find that such calculations are about as uncertain in the end as lucking against fero.

.....With facts, figures and precedents before them, we shall hold ourselves guiltless should any of the Republican candidates who are counting largely on Democratic support be so utterly chagrined and mortified at the outcome that they should go out and hang themselves.

STRUCK OIL.

They Were Boring For Mineral Water,
But Found Something Richer
and Better.

If the Find Comes Up to Expectations
the Ruggles Camp Association
Has a Bonanza.

Struck oil, and the probability is they have got a bonanza.

The members of the Ruggles Camp-meeting Association are feeling unusually good over developments at the camp grounds in the past day or two.

The Board of Directors decided some time ago to drill a well upon the grounds and employed William Danby, of Mt. Oreb, O., to do the work. Mr. Danby is well equipped for the business. He brought his outfit to the grounds on Friday, September 28th, and started the machine to work on the following Monday.

When he had reached a depth of thirty-two feet he found a flow of water which measured sixteen feet in depth, but his instructions were to go considerably deeper, as the directors were in hopes of finding mineral water.

On Friday morning he reached a depth of sixty-two feet when, to his surprise and delight, instead of water there came up a strong flow of rich oil.

The drill was stopped, as Mr. Danby did not wish to go any deeper until he had instructions from the directors. After waiting a few hours he let down his line and the oil measured four feet on the line.

It has the smell of petroleum and when lighted burns freely. When put upon the surface of wood it penetrates immediately and does not rub off, but leaves a sort of gloss.

Mr. Danby says if he can go about 150 feet further he believes he will find abundance of oil, and is willing to take ten feet square of the ground for his pay for drilling.

The Board of Directors will meet on Monday next to decide what they will do.

The people in the neighborhood are greatly excited over the find, and their sleep is, no doubt, frequently broken by dreams of untold wealth. Several property-owners have already contracted with Mr. Danby to sink wells on their grounds.

Some years ago the old firm of Keefer & Roberts bought land about four miles east of the camp grounds and prospected for oil, but never found any.

ELEVEN physicians of Newport have been indicted for failure to register under the new law.

Mrs. FRED D. HALE, wife of the well-known Baptist minister, died in Owensboro Thursday morning. Her husband and six children survive her.

THERE will be no preaching to-morrow at the First Baptist Church, as the pastor will be in Covington. The other services will be the same as usual—Sunday school at 9:15 a. m.; Young People's Union at 6:30 p. m.

At the Mayslick Christian Church, Rev. F. M. Tindler's subjects to-morrow will be as follows: Morning theme, "Will the Book Stand in Part or As a Whole?" At night, "What is a Progressive Church?" The public invited.

PREACHING at Central Presbyterian Church to-morrow morning and evening, at 10:30 and 7 o'clock. Communion after morning sermon. Special subject at night by request. All invited and made welcome. W. O. COCHRANE, Pastor.

The citizens of Sardis have made arrangements to have two artesian wells sunk at once. Messrs. H. T. Boulden and William Mastin have procured the necessary machinery in Chicago and will soon be at work. The people of Sardis have a dread of another water famine.

The young daughter of Mrs. Powers, of Catlettsburg, fell out of a window of a coach on the Cincinnati Southern Road near Burgin, while the train was running at great speed. Remember the hour is changed to 3 o'clock, instead of 3:45, so be prompt.

CHURCH OF THE DISCIPLES—Sunday school at 9:30 a. m. Junior Endeavor, Mrs. Noland leader, at 9 a. m. Y. P. S. C. E. at 6 p. m. Subject of sermon at 10:45 a. m., "The God of Religion is Only a Part of the Real God." Subject of sermon at 7 p. m., "Tis Coming; Yes, 'Tis Coming." We are coming slowly into the presence of a God quite unlike the God of out inherited theology. This Eternal One is not the world's external king, but its indwelling soul and life. He is not law-giver, but law; nor governor, but prevailing spirit; the world's total of life alone expresses the enviroing and vitalizing God. All are made welcome. E. B. CAKE, Pastor.

Has found that her little ones are improved more by the pleasant laxative, Syrup of Figs, when in need of the laxative effect of a gentle remedy, than by any other, and that it is more acceptable to them. Children enjoy it and it benefits them. The true remedy, Syrup of Figs, is manufactured by the California Fig Syrup Co. only.

Round Too Much.

Pale with suppressed indignation, Algenon McStab uncrossed his legs, rose stiffly and turned up his coat collar.

"Glycerin McCurdy," he howled, "you have seen fit to sneer at me. You have accused me of having a wheel in my head. If I have, false beauty, it is at least a wheel that has run true to you."

"Ah, yes," replied the young woman, with a pensive faraway look in her soulful eyes, "and yet I hardly want you for a hub, you know."—Chicago Tribune.

STILL ANOTHER.

Death Preferred Rather Than Being Disgraced.

AKRON, O., Oct. 6.—Henry D. Tolley, one of the most prominent young men socially in this city, and a travelling salesman for the Diamond Rubber company, was engaged to be married, for a year past, to Miss Gertrude Lewis, the highly accomplished daughter of Judge George W. Lewis of the common pleas court. Recently Miss Lewis took Tolley to task for having made a misleading representation regarding his business, and the engagement was in jeopardy. Yesterday Tolley arrived from a New York trip and requested an interview with Miss Lewis at his mother's home. She granted it, going to the house from Buchtel college, where she is a teacher in the art department.

They talked the matter over without any relenting on the part of Miss Lewis. Mrs. Tolley then went to attend a funeral. Tolley then went to another room, and returning with a bottle of chloroform and a handkerchief, succeeded in placing the latter, saturated with the drug, over the young lady's face. She became partly unconscious, and he carried her to an upper room. Miss Lewis was aroused by the position she found herself in, and after a brief, wild struggle, escaped from him and ran down into the street. There she met a mail carrier and asked for his protection. He entered the house, and meeting Tolley in a lower room, demanded to know what he meant by his actions. Tolley's only response was to place the muzzle of a revolver over his own heart and fire. He died at once.

GO AWAY FROM HOME FOR NEWS.

Berlin Dispatches Furnish an Account of the British Cabinet Council.

LONDON, Oct. 6.—A dispatch received here from Berlin says that it has been learned on high authority that the meeting of the British cabinet was called to discuss a proposal for combined action on the part of the powers to interfere and prevent the overthrow of the Chinese dynasty, which it was claimed would result in anarchy in the empire and the massacre of Europeans. One power, it is said, favored a compulsory settlement of the Chinese-Japanese dispute.

The dispatch adds that Sir William Vernon Harcourt, chancellor of the exchequer, supported this view of the action to be taken, but Prime Minister Rosebery and a majority of the cabinet believed that active interference would be more dangerous than non-intervention, and it was decided that Great Britain should not interfere.

NEW YORKS WIN AGAIN.

Another Game in the Temple Cup Series of Base Ball Games.

BALTIMORE, Oct. 6.—Both teams were evenly matched in skill and in play, but an element of luck was in favor of the New Yorkers. In the ninth inning an error by Jennings, which should have been an easy double, retiring the side, finally gave the Giants four runs. The following is the score:

| | R | H | E |
|-----------|-------------------------------------------|---------|-------------------|
| New York | 0 | 0 | 0 |
| Baltimore | 0 | 2 | 0 |
| Batteries | Meekin and Farrell; Gleason and Robinson. | Umpires | Hurst and Emslie. |

Had Plenty of Positions.

EVANSVILLE, Ind., Oct. 6.—Theodore W. Venneman died yesterday, aged 53 years. He was treasurer of the International Ticket Agents' association, assistant secretary of the Western Water Ways association, a director of the Louisville and Cincinnati mail line, a director of the Bank of Commerce and secretary of the Internal Navigators' association. He was also manager of the Grand Opera House.

Clandestine Marriage.

LITTLE ROCK, Oct. 6.—A clandestine marriage was the consummation of a romantic courtship at Hot Springs yesterday. The contracting parties were Ernest Shendal, a hotel clerk, and Miss Eldora P. Craig, daughter of Auditor Craig of the Union Pacific railway. The parents opposed the match, but the young couple took a drive into the country and returned man and wife.

Found Dead in His Room.

CHICAGO, Oct. 6.—Harry S. Mapes, cashier of the Cherwin-Williams Paint company, was found dead in his room last night. He had shot himself through the head. Mapes was short in his accounts, but only to a small amount. His father is said to be a wealthy and prominent man in Cleveland.

Reported Shipwreck.

NANAIMO, B. C., Oct. 6.—It is reported here that the bark Oregon, coal laden, from this port to San Francisco, has been wrecked off Cape Flattery. The wreck has been seen which answers the description of portions of that vessel. The Oregon cleared from here 10 days ago.

New Twine Plant.

CHICAGO, Oct. 6.—William Doering yesterday confirmed the report that the Doering company has decided not to purchase any more twine from the cordage trust, and will manufacture its own twine in a plant now under construction.

Condition of the Czar.

ST. PETERSBURG, Oct. 6.—It is stated that the czar is suffering from extreme weakness, but that he is not confined to his bed. If he is too weak to go to Corfu in December he will spend the winter in southern Russia.

Governor Curtin's Condition.

BELFONTE, Pa., Oct. 6.—Governor Curtin is resting comfortably, but his condition still remains critical. No serious changes have manifested themselves.

Brewster For Congress.

ROCHESTER, Oct. 6.—Henry C. Brewster was yesterday nominated for congress by the Republicans of the Thirty-first district.

New York Republicans.

NEW YORK, Oct. 6.—The Republicans last night nominated Colonel W. L. Strong for mayor, and John W. Goff for recorder.

MYSTERIOUS MURDER.

A Missing Man's Body Found Floating in the River.

PORTLAND, Or., Oct. 6.—The horribly mutilated remains of George W. Sayres, who has been missing since Sept. 26, were found floating in the Willamette river yesterday. On the night of Sayres' disappearance an unknown man called at Sayres' home, and after some conversation earned in an undertone, Sayres took his hat and left. This was the last seen of him until his body was recovered yesterday.

The police have arrested six men of bad repute, who it is believed can throw some light on the murder; one of them, John Burus, a laboring man, has confessed that he was hired to make away with Sayres, but after going on the errand several times, his conscience got the best of him and he refused to carry out the plot.

Senator Gorman Ill.

BALTIMORE, Oct. 6.—Senator Gorman's close friends here say he is suffering with Bright's disease, and has accepted the advice of his physician, Dr. Lincoln of Washington, to abstain from active political work. This accounts, they say, for the indifference the senator has manifested as to the anti-Gorman resolutions passed by so many Democratic county conventions in this state and as to the nomination for congress in the Fourth district of John K. Cowen, counselor of the Baltimore and Ohio railroad and one of the senator's opponents.

Heavy Weather at Sea.

BOSTON, Oct. 6.—The Wilson line steamer Galileo, which has just arrived, reports having encountered heavy weather off the Grand Banks. Yesterday she passed a quantity of wreckage four miles east of Boston light. This consisted of portions of a vessel's bulk and a deckhouse. The wreckage was painted white and evidently came from some small vessel. There was also seen a large quantity of timber in the vicinity.

An Explanation Demanded.

NEW YORK, Oct. 6.—A special from Buenos Ayres says: It is reported at the office of the minister of war that a steam launch from a gunboat of the Brazilian squadron on the upper Uruguay has fired upon a body of Argentina's frontier guards. An explanation of the insult has been demanded of Brazil.

VALLEJO, Cal., Oct. 6.—William Dixon's chestnut mare, Quirt, by Joe Hooker, yesterday ran two fastest half mile heats on record. She won the first heat in 0:47 1-4; second, in 0:47 1-2.

"This Picture and that"

For a long time Mr. John Barbee, of 117 Main St., Durham, N. C. was a victim to Dyspepsia.—He was advised to take

Brown's Iron Bitters.

On July 10, 1894, he wrote a grateful letter in which he said:

"I have used Brown's Iron Bitters for two months for Dyspepsia and it has cured me."

He does not mind it's being known—perhaps his letter may help you to a cure! This remedy has helped thousands during the past 20 yrs. Will you try it? It does not constipate and it WON'T INJURE THE TEETH.

DELIGHTED!

We have everything to gain by trading on a narrow margin of profit. We could not fill our shelves with goods at the very lowest prices known in the market if we did not buy on a large scale, and we could not sell on a larger scale unless we gave the public the full benefit of our close buying. We love to make our discounts. Our business will grow steadily, because we give it close attention. We buy cheap; we can sell cheap. Try us, the people's grocers.
